The Pestana Palm Gardens comprises seventy-eight "Townhouses", all of which have two bedrooms, some have a sea view and all are equipped with roomy kitchens and wide sliding doors onto the garden.

The town houses are designed in the style of the Algarve and are built around a large swimming pool. The centre, shops, restaurants and night spots are all within a short distance.

For the sporting inclined there are three golf courses in the vicinity, two tennis clubs, and two lawn bowling clubs.

The "Palms Clubhouse" provides breakfast, snacks, drinks and light meals. Other facilities for guests include a children's play area. The Hotel is conveniently within a good walking distance of the village. Carvoeiro was once a sleepy small place but it is now a popular location for smart restaurants, bars and night life.
